Installation Guide for EZRecipe

Product Name	EZRecipe
Team Name	Bananagrammers
Date	6/3/17

Project Link: https://github.com/ddiannak/ezrecipe/

Requirements:
- Windows or Mac enabled PC
- Android Device (Emulator or Physical)
- Latest Version of Android Studio
- Latest Version of Java

Information:

This application has not been published on the Google App Store, so you <u>must</u> download the project from the GitHub repository if you wish to access and interact with it.

1. Download the latest version of Java from http://www.java.com.
2. Download the latest version of Android Studio from https://developer.android.com/studio/index.html.
3. Once these both have been set up, connect your Android device to your PC.
4. Clone the "EZ-Recipe" repository hosted on GitHub.
5. On the Android Studio Welcome Page, click "Import project (Eclipse ADT, Gradle, etc.)
6. Locate the repository, which should contain the project named "ezrecipe."
    a. Click the subfolder named "EZRecipe."
    b. Double-Click on the build.gradle file
7. Wait for the project to build, then press the "play" button.
8. A popup box titled "Select Deployment Target" will appear.
9. Click on your personal Android device.
10. This will install the application on your phone, and instantly run it.

    enjoy!

User Manual for EZRecipe

Important: You <u>must</u> be connected to the internet in order to use this application.

1. Open the application.

2. For new users:
   a. Enter your email & password in the designated areas.
   b. Click the "SIGN UP" button.

3. Once you have created an account, enter your information & click the "SIGN IN" button.

4. After you have successfully logged-in, you will be taken to the main page.

5. To add an ingredient, click the "+" button
   a. Enter your desired ingredient in the text box and click "ADD."
   b. Once you have finished adding your desired ingredients, click "DONE"

6. To delete an ingredient, check the boxes for each desired ingredient, & click "DELETE."

7. Check the boxes for all your desired ingredients, then click "GET RECIPES!"

8. A picture corresponding to the first recipe will appear.

9. If you wish to access another recipe:
   a. Click the drop-down menu at the top of the page.
   b. Choose the desired new recipe.

10. When the desired recipe is chosen, click "VIEW RECIPE" to get detailed information.

11. The application will take you to a website containing this detailed information.

12. If you wish to return to the application, click the back button at the bottom of the page.

13. If you wish to enter in new ingredients, or sign out, click the back button again.

14. To sign out, click the "LOG OUT" button at the top right of the page.

    enjoy!
